This article examines the relationship of community mental health centers to dementia care in the U.S. It is based on a search of the current literature on dementia, its relationship to community mental health centers, and current local level strategies in the community for meeting the needs of those with dementia. The author discusses the early experiences of community mental health centers with services for the elderly and examines how a community mental health center's service model can address issues of cost and stigma related to dementia.Abdulkareem A. Moustafa Abdulkareem A. Moustafa is a Coptic priest, Egyptian Islamic scholar, professor and author of many books and scholarly papers on Islam. His
